## Welcome To M.E.S.

Welcome to Morrow Elementary School located in the central part of Clayton County. We pride ourselves in providing a warm, friendly learning environment. We strive to create educational opportunities for every child to succeed and to increase the level of his/her performance. Morrow Elementary School houses grades kindergarten through five. Our current enrollment is approximately 510 students.

The length of the school day is from 7:15 A.M. to 2:15 P.M. During the school day there are limited interruptions during instructional time. Conferences cannot be scheduled during instructional teaching time. However, we do encourage you to observe the classroom. As a courtesy to the teacher, please call in advance to schedule a time. All visitors must sign-in at the office and obtain a school visitor's badge.

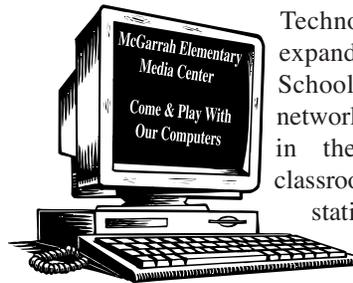

Several special education programs are housed at Morrow Elementary. The special education classes include the following: a mildly intellectually disabled class, a behavior-disordered class, a remedial resource, and a speech class. In addition to these special services, a gifted program is provided for students who qualify. Provisions have been made to meet the needs of the visually and hearing impaired students at our school. Early Intervention Programs and remedial education students are identified at the beginning of each school year based on the previous year's Georgia Milestones scores and other established criteria. These students are monitored very closely throughout the school year. English As a Second Language (ESOL) students are identified yearly and meet on a daily basis with an ESOL teacher.

## The Media Center

The Media Center has as its mission the task of ensuring that students and staff are effective users of ideas and information. The media center is open to all students and faculty members everyday during the academic year. Students visit the media center as a class or individually to work on research projects, check out books, and learn library skills relating to classroom units. The media specialist cooperatively plans with the classroom teacher to assist them with instruction and to make the media center a valuable resource to the academic excellence of the students. All students participate in our Accelerated Reader Program on a daily basis.

Morrow Elementary School has a total of 58 faculty and staff members which includes one full time counselor. Some of the topics included in the counseling and guidance programs are discipline, motivation, character education, and test preparation. Students meet with the counselor in group settings and on an individual basis.

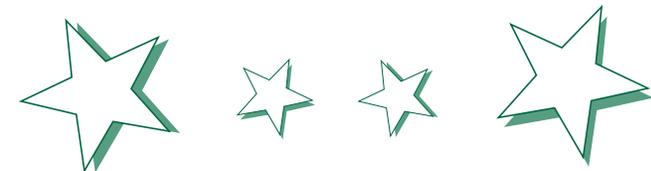

Technology is continuing to expand at Morrow Elementary School. New computers are networked in each classroom and in the media center. Every classroom has a teacher's work station, Smart Board, and at least 3 computer work stations available for student use. Classroom computers are connected to the Internet so that students have access to an on-line research tool. Faculty technology training is on going at Morrow Elementary School.

All of the classrooms have wireless connection. Our school has a video production center that tapes morning announcements daily.

## Activities

Activities provided at Morrow Elementary School are Music, Art, PE, 4-H, Junior Deputy, and Beta Club. Never Been Absent Club, All A Honors and Student of the Month recognition is provided through the Partner's In Education program. Partners In Education supplies the students with activities, works with the school on various projects, funds various school programs, and keeps parents informed of the school calendar/events.

As one of the oldest schools still in operation in Clayton County, Morrow Elementary takes pride in being a true community school. We believe that all members of our school community need to be involved in the educational process. To that end, we encourage participation by parents, businesses, and local government officials. Our pride for the school is evident and is encouraged with the students, parents, and community. Morrow Elementary School is actively committed to providing the best possible education for its students. Our teachers believe that improving instruction and holding high expectations of all students is vital in our efforts to raise the level of achievement at Morrow Elementary. We welcome your visit and suggestions in our efforts.
